## Catalina Marine Society presents

### Kevin Lee and a Natural History of Opisthobranchs

*Flabellina iodinea*

©Kevin Lee

©Kevin Lee

*Melibe leonia*

Kevin Lee is an adventurer, keen on the outdoors. He learned SCUBA diving just 10 years ago and quickly found a passion and skill for underwater photography.

He's dived the waters of all 7 continents, seeking his favorite subject: opisthobranchs.

See Kevin's lush images and learn about sea slugs' behavioral aspects such as defensive tactics, feeding, locomotion, and

reproduction. Attention will be given to local opisthobranchs, helping you understand and perhaps to locate our local sea slugs.

*Light refreshments will be served following the presentation.*

*Janolus barborensis*
